WHAT IS PROFHILO®

IT IS

HYALURONIC ACID AT ITS BEST

Developed with IBSA's patented NAHYCO® technology, PROFHILO® contains one of the highest concentrations of hyaluronic acid and delivers a prolonged efficacy without the addition of cross-linking chemical agents.

IT IS

QUALITY & SAFETY BY DESIGN

ULTRAPURE hyaluronic acid in compliance with European and FDA standards.

IT IS

BIOCOMPATIBLE

Integrates into the tissue where it restores the levels of hyaluronic acid naturally found in the skin.

IT IS

EFFECTIVE

Clinical data confirm improvements in skin texture, elasticity and hydration with an immediate tightening effect.

IT IS

NON-INVASIVE

A specially developed injection technique reduces pain, downtime and the number of treatment sessions, making it the perfect lunch-time procedure.

**THE FAST AND EASY WAY
TO HEALTHIER SKIN**

WHY PROFHILO®

Over
500,000
treatments performed.
December 2018

Available in
56 COUNTRIES
December 2018

BEST PRODUCT AWARDS

2016-2018

WINNER 2016
**Aesthetics
Awards**
THE BARRY KNAPP AWARD FOR
PRODUCT INNOVATION OF THE YEAR

PREFERRED BY PATIENTS:

Reduced number of
treatment sessions

Reduced number of injection
sites, therefore reduced
discomfort per session

Reduced or eliminated
downtime

Optimal results visible
after only 2 treatments*
(1 month interval)

* NUMBER OF TREATMENTS AND PRODUCT QUANTITY DEPEND ON THE DEGREE
OF AGEING AND TREATED AREA.

PROFHILO[®]

BIOREMODELING WITH AN IMMEDIATE TIGHTENING EFFECT

A NEW ANTI-AGEING APPROACH

Bioremodeling is an innovative approach to anti-ageing which counteracts skin laxity of the face and in areas traditionally difficult to treat, such as the neck, hands and arms.

IBSA

QUALITY MADE IN ITALY

Quality is achieved through attention to details; not always visible, but always essential.

IBSA is unique in this vast market, owing to its complete control of the hyaluronic acid lifecycle; from the raw material production to the finished product.

IBSA's wide range of dermoaesthetic products, made in Italy, is adaptable to meet various patient needs, with the goal of biorejuvenation.

The knowledge, ongoing scientific research, technological development and state-of-the-art production processes makes **IBSA** one of the leaders in hyaluronic acid production.
