

NEW COMPLEXION... NEW YOU

HOW IT WORKS:

SkinPen Precision creates temporary small microscopic channels in your skin.

These tiny punctures stimulate tissue regeneration through a process called Collagen Induction Therapy (CIT) which visibly improves the appearance of the skin, creating a radiant glow.

Watch your skin look more youthful and rejuvenated with SkinPen Precision.

BRING OUT YOUR INNER BEAUTY

**Give your skin the youthful boost it deserves...
skin rejuvenation from the inside.**

SkinPen Precision is a microneedling device that utilizes Collagen Induction Therapy to treat acne scars and fine lines & wrinkles on the face and neck. SkinPen Precision is also found to be helpful in restoring the skin's abnormal pigmentation activity often found in skin conditions such as melasma, vitiligo and sun spots.

YOUTHFUL LOOKING SKIN AWAITS

**SkinPen Precision is simple, comfortable,
and effective for skin rejuvenation in as little
as 30 minutes.**

WHAT YOU CAN EXPECT:

Light Numbing

Topical anesthetic may be administered to assure comfort during the treatment.

Simply Treat

SkinPen Precision creates thousands of controlled microchannels in the skin to stimulate your body's innate wound healing cascade.

This healing process works at the site of treatment to remodel the tissue to give your skin a younger, firmer and radiant appearance.

Hydrate to Protect

The LIFT Hydrogel is applied to the treatment area to help reduce friction for easy gliding and comfort.

Your provider may recommend a course of procedures based on your individual goals. Maintenance of your results might require multiple treatments.

SKINPEN® PRECISION IS AN IDEAL CHOICE FOR REMARKABLE RESULTS

ACNE SCARS*

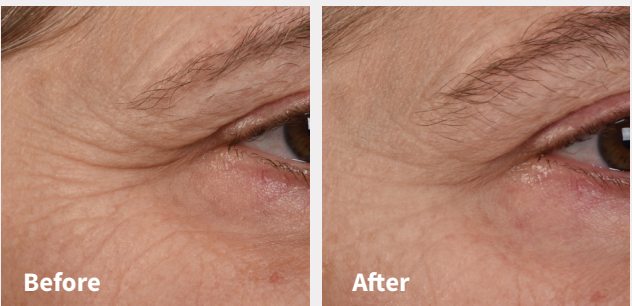

Female, 6 Procedures

READY FOR RADIANT,
YOUTHFUL LOOKING SKIN
WITH SKINPEN® PRECISION?...

What is SkinPen Precision?

SkinPen Precision is a leading skin remodeling device.

As we age, the natural architecture of our skin deteriorates, which leads to fine lines, wrinkles, large pores and uneven skin texture.

Collagen Induction Therapy (CIT), also known as microneedling is a way to address these signs of aging.

SkinPen Precision is designed to treat different body parts including face, neck and hands.
